📁 Portfolio Website

Summary

- AI-focused Full Stack Developer who **designs, builds, and deploys intelligent** web applications from concept to production. I turn **LLM and machine learning** capabilities into reliable, user-friendly products that solve real business problems.
- **End-to-end ownership**: database design and APIs to the user interface and live deployment, delivering complete, working products
- **Applied AI**: built retrieval-based assistants, LLM-powered agents, and workflow automation that people use daily
- **Improved AI accuracy and speed**: shows real results and a production mindset
- **Fast learner**: keep up with the quickly changing AI landscape and bring practical, proven approaches into real projects

Technical Skills

- **Artificial Intelligence** : Open AI API, Claude AI, AI Agents, AI Workflow, NLP, LLM, RAG
- **Frameworks** : Node.js, Express.js, React.js, JWT, Auth, bcrypt, Socket.io, Material UI, Router, Hook, REST APIs
- **Programming Languages** : JavaScript, Python, Core Java, C++, HTML5, CSS3
- **Automation & Tools** : n8n, Git, GitHub, VS Code, Slack, Postman, Vercel, Render
- **Databases** : MongoDB, MySQL, Airtable

Technical Experience

AI Recruiter — AI-Powered Recruitment

May 2026 - Aug 2026

Tools : React.js, Node.js, Express.js, MongoDB, OpenAI API, JWT, REST API

- Resume → AI extraction → JD matching → scoring → ranking → recruiter decision → automated communication
- Developed a full-stack AI-powered recruitment platform using the MERN stack to automate candidate screening, ranking, interviewing, and recruitment workflows.
- Implemented **AI-based resume parsing** and job-description matching to extract candidate skills, experience, education, and generate candidate compatibility scores.
- Developed an **AI interview module** capable of generating role-specific questions and evaluating candidate responses with strengths, weaknesses, and scoring.
- Implemented **JWT-based authentication** and role-based authorization for Recruiter, Candidate, and Admin users.

Twit-Chat Application

Dec 2024 - Jan 2025

Tools : HTML, CSS, JavaScript, Node.js, Express.js, Socket.io, ejs

- Built a **real-time chat platform** supporting one-to-one and group messaging with low-latency communication and reliable message delivery.
- Developed a **responsive, multi-device user interface** that provided a consistent and user-friendly experience across desktop and mobile browsers.
- Designed and implemented **scalable backend APIs** and optimized real-time communication to improve message delivery, application responsiveness, and overall system reliability.
- Implemented **real-time event handling and communication workflows** to enable seamless message exchange between connected users.
- Structured the application for **scalability, maintainability, and efficient client-server communication**, supporting future feature expansion.

Quick Notes Master

Nov 2024 - Dec 2024

Tools : HTML, CSS, JavaScript, Node.js, Express.js, ejs, Auth, Bcrypt, Hash

- Developed a lightweight **file-based note management application** for creating, editing, renaming, and managing text files.
- Implemented **server-side filesystem operations** to provide persistent local storage while keeping the application architecture simple and resource-efficient.
- Built a clean and responsive interface that enables users to **organize and manage text-based notes efficiently**.
- Designed backend routes and file-handling workflows to support **reliable CRUD operations and seamless user interaction**.

Education

Silver Oak University

(2023 - 2026)

Bachelor of Computer Applications - CGPA - 8.2/10

Ahmedabad, Gujarat - 380001

Courses : Python, MongoDB, C++, JavaScript, Core Java, HTML, CSS, Flutter, Dart, C, UI-UX, IOT, AWS

Maktabah Jafariyah

(2021 - 2023)

Senior Secondary

Sedrana, Gujarat - 384151

Courses : Statistics, Account, Economics
